In the first hour this afternoon Wallace Ross travelled 13 miles and 1 lap, which was just enough to annihilate the advantage which O'Connor had over him when the race closed last night.

Plaisted, who was 6 miles behind Teemer last night, made 12 miles and was second in the race at 3 o'clock, and McKay held his own even with Ross, he being still two miles behind the Halifax man.

A STARTLING THEORY

Is It "Dr. Jekyll and Mr. Hyde" in Real Life?

Whitechapel's Mystery May Have an Astounding Sequel.

London's Detectives Said to Be Working on an Extraordinary Clue.

London, Oct. 9. -I am informed by a genleman, who stands in close relations at Scotland Yard, that several of the leading detectives have thrown over the clues and ideas heretoforo taken up and are working on an entirely new and most remarkable theory.

This theory is that the horrible crimes which have so disturbed the city and interested the entire world are the result of a case in real life of " Dr. Jekyll and Mr. Hyde." Furthermore, the detectives believe that the existence of such a case is directly attributable to the excitement and morbid reflections caused by a mind dwelling upon the circumstances detailed in the story and play just named.

Parallels are ingeniously drawn between the acts of the Whitechapel menster, who not only kills but mutilates his victims, and the frenzied brutality with which the Mr. Hyde of the fiction stamps upon the girl, whom he knocks down and injures in the deserted and echoing stree's at midnight, as told in the first part of the book.

Not only have the police been brought to this astounding position, through what they claim is direct evidence corroboratory of such a theory, but they are industriously working with a particular individual in view, and they believe that they are truly upon the right track. If it be so, Lordon is promised for a not far distant future a consation of such magnitude that the tragedies leading to it will sink almost into insignificance beside it.

My informant tells me that a well-known, prosperous resident of Grosvenor square is the teaching this muder pulse surveillance.

PLOT TO OVERTHROW POWDERLY. Atchman, Campbell and Layton Interested

in the K. of L. Deal. SEPECIAL TO THE EVENING WORLD. Pririspuno, Oct. 9.—One of the biggest deals in K. of L. circles has just been completed. Its accuracy is vonched for by a knight and ex-officer of the order, whose name is in the possession of the Post, which

prints the story to-day. The chief features of the plot are the overthrow of Powderly and the elevation of ex-Secretary Litchman.
A number of persons are implicated, among them being Layton, who heretofore has been presumably a great friend of the Master

Workman.
The fact which verifies the story to a very great extent is that Lavton, who, the public has been led to believe, was recently in Washington, has actually been in Indiana. The object of his mission there is said to have been the advancement of the Republi-

an ticket. The slate as arranged is : Litchman for Master Workman. President James Campbell of the Window-lass Workers' Association, for Worthy

Foreman.
Robert D. Layton for General Secretary. Everything has been prepared, the pipe laid and a systematic effort, extending throughout the order, is being engineered to win the order over to Litchman.

DIED IN A BLAZING ROOKERY

TWO MEN AND TWENTY-SEVEN HORSES WAIT IN VAIN FOR RESCUE.

Four Flimsy Stables Caught Fire in the Early Morning-There Was Delay in Opening the Fire-flox and the Buildings Burned Like Tinder-One Man's Body Found in the Ruins and Another Will

A fire, by which one man has already lost his life and in which twenty-seven horses also died, occurred in East Thirty-fourth street early this morning.

The burned buildings were used as stables, and extended along Thirty-fourth street from Nos. 404 to 410 and tack about the same dis tance. They were old, dried-up, single story affairs, and it is a wonder that they were a lowed to stand.

About 1.40 o'clock a policeman was passing the rookeries, when his attention was attracted by a smell of smoke. He went up to the gates and peering in between the cracks saw the whole place in a blaze. He ran to the southwest corner of First avenue and Thirty-fourth street and at-

tempted to open the fire alarm box. He was unable to do so, and three other people who carried fire keys failed in a similar attempt. Finally an axe was procured, the box was pried open and the alarm sent. Engines 21, 8 and 16, and Hook and Ladders 7 and 2 under the command of Chief Fisher, responded.

and three streams of water were soon pouring in on the flames.

In the meantime a man terribly burned rushed from the building and cried out to the people to save his friend, who had been caught inside.

He was taken to Bellevue Hospital, and it was learned that he was John Roach, twenty-one years old, and employed by Korminsky Brothers, newsdealers, of 212 West Thirty-fourth street.

When the firemen and a citizen named William White got inside they discovered the body of Thomas Carr, nineteen vears old, who was also employed by Korminsky Bros.
They lifted him on a sheet and carried him across the street, from whence he was removed to the Morgue.

The two young men slept in a wagon in the stable with the intention of starting downtown at 1.30 o'clock for their supply of morning papers.

stable with the intention of starting downtown at 1.30 o'clock for their supply of morning papers.

Roach lived at 323 East Thirty-second
street, but Carr's address could not be
learned. It seems that up to two months ago
he lived with his mother in Greenpoint. For
some reason unknown he ran away and came
to New York.

How the fire originated is a mystery. It
started in the rear of Magnire's stable, at 404,
and spread until the whole place was a sething mass. The clang of the fire bells brought
the tenants of the nearby tenements to the
windows, but they saw that they were in no
immediate danger and a panic was averted.

When the fire started there were twentyseven horses in the place. One escaped, but
died a few hours later. The building was
occupied by cab and truck owners, and
their losses aggregate \$10,000, estimated as follows: Michael Maguire,
\$3,000: Heury Korminsky, \$3,000;
Edward Donohue, \$1,500; Daniel Mahoney,
\$2,000: William Barry, \$300; Thomas Maguire, \$300. Michael McDermott, \$300; John
Brady, \$300. Michael McDermott, \$300.

The event number of cabs and trucks lost

The exact number of cabs and trucks lost could not be ascertained. The Avenue B Railroad Company lose \$50 on the starter's office, which was gutted.

The building was owned by D. D. Withers, the noted turfman, and he will lose \$1,000.

At the Bellevue Hospital at noon Dr. Leyton, who has charge of Roach, reported that his patient was still alive, but he entertained no home of his recovery. flice which was gutted.
